

We, the following electors in the City of Punta Gorda FL, propose an ordinance: "Limiting the total height of buildings in the Downtown Core to seventy (70) feet from ground elevation, and buildings in the Village Center to fifty (50) feet from ground elevation. This would not apply to a building that is 100% a medical facility.

AND density to be limited to twenty (20) units per acre, with no transfer of density permitted. These height limits are not to be increased by overlays or planned development or the like.

AND developments over 20,000 square feet are required to provide two (2) car parking places of at least 18 ft long for each residential unit."
